Celebrates Eightieth Birthday and is Showered With Gifts From Fellow Countrymen

### Factors In Progress

THE Dominion Minister of Railways, in his address on Thursday, urged the construction of a network of a network or branch railways through the Peace River country, as being more immediately important to the settlers in solated sections than the opening of another railway outlet to the world markets.

That is something that will have to be done, if the settlers now in the north are to be given a fair chance and if further settlement is to be allowed to proceed. Whether built under Dominion or Provincial auspices, and by the National State of the C.F. R., or as a public undertaking, a breast system of the control of

coal field of Alberts is situated better than any other we supply it.

These two projects have a direct bearing on the future of Edmonton. The opening up of the Peace River by branch railways means more business done through Edmonton and in Edmonton. The development of a coal market on the country which does its trading in and through Edmonton These are two of the thems which go to make up a pro-gram of prospective development upon which Edmonton people may build expectations and plans for a larger pros-perity than the city has yet known.

Not on the Terms Proposed

While Canada will eventually be able to use all the power to which she is entitled from the International Rapids of the St. Lawrence River, there is no need for the Dominion to surrender any sovereign rights in order to secure its immediate development.

The United States proposals for the St. Lawrence River Waterway and what their acceptance by Canada would involve, are discussed in an interesting and informative manner in a 16-page book-let which we have published

BERT'S GARAGE

#### 3559 Miles-Averaging 51.9 Miles Per Gallon

This is the sensational economy record recently achieved by a stock model Whippet when it travelled from Los Angeles to New York—establishing a new national coast-to-coast economy record.

It is not only that Whippet is America's most econo-ical car, but the fact that Whippet introduced su-high-priced car features as 4-wheel brakes, increas-rountiness, greater speed and acceleration, low centre of gravity and smarter appearance—at a pri all can allow.

Over 120,000 owners recognite Whippet superiority, and have proved it by more than 400,000,000 mfles of driving.

Come in and see the car that is "a year old-and still a year alread".
